**Commissioner for Patents**

Applicant has not commented on the species requirement of the restriction of 10/04/06; neither confirmation that all members of each of the 3 required species groups, attractant species, subduing agent species, & trigger species, are obvious equivalents of each other, or that a particular member is elected for examination. the restriction requirement has not been withdrawn, claims, 25-24 would seem to belong to group II.

We note that there is still no species of trigger identified in the claims, claims 5-7 identify a subduing agent, whether obvious variants of each other or not, has not been addressed yet by applicant. There is no identification of any attractant in any claim.

NEIL LEVY  
Primary Examiner
